

Stadium View Students, Join us for Gateway to Manufacturing Workshop

**When: Saturday, June 1, 2013
8:30am - 11:30am**

**Where: Career and Technical
(Classroom 5-2)**

Come learn how you can take an idea sketched on paper and turn it into a virtual model using CADD (computer aided drafting and design). During our time together, we will:

- Learn about and use precision digital measuring tools
- Discuss what lean manufacturing is
- Understand welding as a form of artistic expression
- Explore vocational/technical school training and job outlook

With a background in mechanical engineering, Mr. York has been privileged to work many years in manufacturing. He uses SolidWorks software to teach basic engineering principles to teens.
